

"A Sovereign Agentic Operating System for Enterprise Banking"

1. EXECUTIVE SUMMARY & STRATEGIC VISION

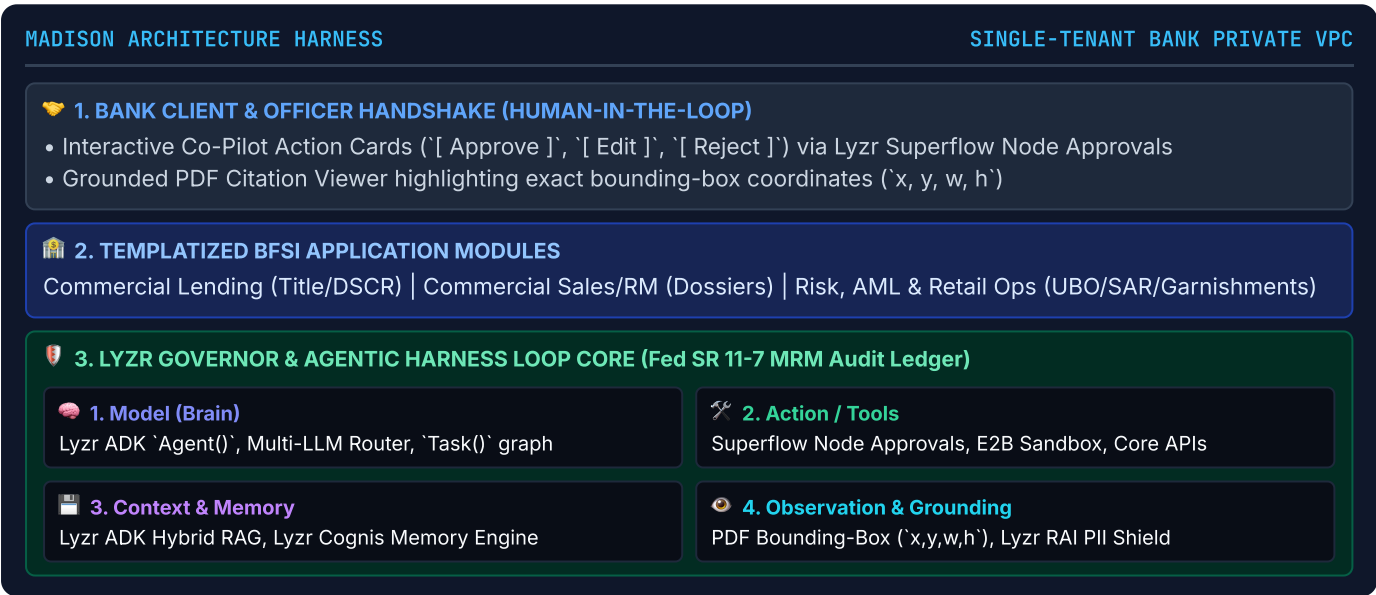

EXECUTIVE OVERVIEW

Madison is an Enterprise Agentic OS built natively on the Lyzr Stack. It transforms slow, document-heavy banking workflows into autonomous, zero-hallucination, human-governed execution pipelines—starting with high-value Commercial Lending and expanding into Commercial Sales, Marketing Compliance, Retail Ops, and AML/KYC (\$10B–\$50B+ AUM banks).

STRATEGIC VISION

To establish **Madison** as the premier enterprise agentic product suite for banking—leveraging Lyzr’s full-stack AI infrastructure to automate high-friction financial workflows with 100% auditability, bank-grade PII isolation, and zero-hallucination PDF coordinate grounding.

2. GROUNDED ARCHITECTURE (POWERED BY LYZR STACK)

PILLAR	FOCUS AREA	HIGH-ROI LYZR AGENT MODULES
2. Commercial Sales/RM	RM Productivity & Origination	Pre-Meeting Customer Dossiers (SEC 10-K); Deal Structuring Co-Pilot.
3. Marketing & Growth	Acquisition & Compliance	Ad Regulatory Compliance Agent (TILA, RESPA, CFPB rules).
4. Retail Operations	Branch & Customer Servicing	Garnishment & Levy Execution Agent; Deceased Account Probate Agent.
5. Risk & AML/KYC	Financial Crime & GRC	UBO Tracing Agent (unwrapping shell webs to ≥ 10% owners); SAR Narrative Writer.
6. Wealth & Treasury	Private Banking & Hedging	ISDA & CSA Master Agreement Auditor; Daily Margin Call Agent.

1. Legal & Advisory Law firms & consultancies pitch/co-sell Madison.	2. System Integrators SIs (Accenture/EY) manage legacy core APIs.	3. Cloud Marketplace AWS/Azure EDP spend drawdown co-selling.	4. Outbound ABM Direct CCO & General Counsel C-suite outreach.	5. Inbound Marketing SR 11-7 whitepapers & ROI calculators.
